

ProPaper® TR

ProPaper TR is a bright white, stiff, polypropylene film engineered to feed quickly and reliably through sheeters and printing presses. The film has excellent lay-flat characteristics and superior dimensional stability for precise color registration. ProPaper TR is an ideal material for graphics applications where durability, water resistance, and chemical resistance are required.

APPLICATIONS:

- Labels
- Plant tags
- Maps and charts
- Signs
- Graphics applications

ADVANTAGES:

- More durable than paper substrates
- Excellent water and grease resistance
- Feeds quickly and reliably through printing presses
- Superior lay-flat characteristics
- Superior dimensional stability for exceptional color registration
- Sheets easily and cleanly
- Easy to print using a variety of methods including screen printing, offset lithography, and flexography
- Easy to die cut
- Economically priced
- Excellent tear resistance
- Recyclable

MANUFACTURING CAPABILITIES:

- In-line corona treatment on both sides
- UV stable grades available
- Thickness range: 2 mil to 12 mil thick
- Standard web widths: 44" - 83"
- In-line slitting to custom roll widths
- Biodegradable available
