

ProPaque®

ProPaque is a bright white, opaque propylene film engineered to feed quickly and reliably through sheeters and printing presses. Unlike competing block-out substrates, ProPaque has excellent lay-flat characteristics and superior dimensional stability for precise color registration. ProPaque can be sewn and grommeted and it is an exceptional material for use in the construction of banners and pennant strings.

APPLICATIONS:

- Banners
- Pennant strings
- P.O.P. displays
- Advertising graphics

ADVANTAGES:

- Excellent opacity for two-sided printing
- Feeds quickly and reliably through printing presses
- Superior lay-flat characteristics
- Superior dimensional stability for exceptional color registration
- Sheets easily and cleanly
- Easy to print using a variety of methods including screen printing, offset lithography, and flexography
- Easy to sew, grommet, and heat seal
- Coated, ink-jet printable grades available upon request
- Economically priced
- Recyclable

MANUFACTURING CAPABILITIES:

- In-line corona treatment on both sides
- Thickness range: 6 mil to 12 mil thick
- Standard web widths: 44" - 83"
- In-line slitting to custom roll widths
- Biodegradable available
